Leaving Sydney

- **NSW:** For a getaway that isn't leaving the state, rent a car and drive down to Hyam's Beach - which holds the world record for the whitest sands in the world. Stay at Paperbark Camp for a very Aussie experience! If you want to spend a bit more, Lorde Howe Island is also spectacular
- **Queensland:** Cairns in Queensland is a great base for doing both the Daintree Rainforest and the Great Barrier Reef. However, our favorite spot is Hamilton Island which is a short two-hour flight from Sydney. Fitzroy Island is also beautiful and very affordable, and Byron Bay is a must-do for surfer types
- **Tassie:** Tasmania is full of rugged landscapes and stunning hiking trails, as well as famous cultural institutions like MONA
- **The Outback:** For a quintessential Australian experience (note: it will be HOT), head to Yulara where the world-famous Uluru is located. If you go, be sure to have Chris (Chloe's brother who works there) fly you, who flies with Ayers Rock Scenic flights
- **New Zealand** is also only a three-hour flight from Sydney!
